Thank you for purchasing this ProMaster L Bracket.
Use it to quickly mount and dismount your camera
on a tripod or other mounting device.

This product includes the correct number of screws
and other accessories to mount the system.

First attach the L bracket to the camera using the
camera's 3/8” threaded socket.

Figure 1 shows the mounting alignment of the L bracket
and camera. Figure 2 shows the combination to the camera /
L bracket combination to a tripod head.

The L bracket can remain connected to your camera
once attached.

One Year Unconditional Warranty

For any reason, this ProMaster product falls within
ONE YEAR of the date of purchase, return this
product for repair or replacement. ProMaster
products are guaranteed for ONE FULL YEAR
against defects in workmanship and materials. If
a product fails under normal use, we invite you to
return it to ProMaster for evaluation.
